(54) Title: DEEP FAT FRYER AND COLLAR FOR SUCH A FRYER

(57) Abstract: A deep fat fryer including a pan (2) for holding liquid fat for frying food, the pan (2) having a brim (4) extending along its topmost end, a heater (7) for heating fat in the pan (2), a housing shielding the pan (2) from the environment, an upright exterior wall surface (8) facing away from the pan (2), and a collar (9) extending closely along the brim (4) of the pan (2). The collar (9) is detachable and includes a flange (11) projecting outwardly from the brim (4) and shields at least a portion of the upright exterior wall surface (8). The flange (11) counteracts soiling of upright exterior wall surface (8) and can be cleaned or disposed easily.
